About the Agricultural Leadership Foundation of Hawai'i

The Agricultural Leadership Foundation of Hawai'i, a Hawai'i not-for-profit organization founded in 1982, was established to develop and support effective leaders in the agricultural industry, through a multi-disciplinary leadership-training program. The Foundation is also a host of the Statewide Agriculture Conference that features training and networking opportunities for all of Hawai'i's agricultural sectors. The leadership training program was designed to expand the participant's access to beneficial resources, build confidence, enhance leadership skills, broaden the participant's perspective of statewide agriculture, understand common problems and to envision community based solutions. The Foundations goal is to develop leaders who are able to understand, articulate and build collaborative strategies to address Hawai'i's agriculture issues and problems.
